Education

Nov 2023 - Feb 2025

Full-Stack Web Development Bootcamp
Instructor: Angela Yu – Online, landon

- Learning **JavaScript, React.js, Node.js, Express, PostgreSQL, MongoDB, Authentication, REST APIs, and Deployment**.
- Hands-on projects building **full-stack applications** with real-world use cases.
- Exploring **Web3 development** using **Motoko language** on the Internet Computer (ICP).
- Focused on creating responsive, secure, and scalable applications with modern tools.

Aug 2023 - Nov 2023

Codecademy – Online
Codecademy, New York, USA

Completed courses in **HTML5, CSS3**, and **JavaScript fundamentals**.

Gained solid foundation in **front-end development**.

Jan 2024 - May 2024

Coursera
Meta, landon

Learned **JavaScript (Basic & Advanced)**, **React.js (Basic & Advanced)**, and **Version Control (Git & GitHub)**.

Worked on practical projects applying **front-end frameworks** and **state management**.

Mar 2025 - Jul 2025

coursera
IBM – Online, New York, USA
Software Engineering Introduction
- Completed the **Introduction to Software Engineering** course.
- Gained foundational knowledge in **software development processes, programming basics, and engineering best practices**.

Skills

Html5	Css3
JavaScript	React.js
Node.js	Express
PostgreSQL	MongoDB
Authentication	REST APIs
Responsive Design	Web3 Development
Frontend Development	Backend Development
Database Management	API Integration

Web Application Deployment

Motoko programming

Full-stack application development

Version control with Git

Agile methodology

Problem-solving skills

UI/UX design

Cross-browser compatibility

Performance optimisation

Debugging and testing

Security best practices

Critical thinking

JavaScript ES6

NFT

Team collaboration

Token

Languages

Somali

Arabic

English

Hobbies

■ Coding   ■ Web development

■ Reading   ■ Travelling

■ Learning languages   ■ Music

Courses

Nov 2023   ■ **Full-Stack Web Development Bootcamp**
- Implemented server-side logic and RESTful APIs with Node.js and Express for scalable backend solutions.
- Applied authentication and security best practices to safeguard user data and application integrity.
- Created and deployed full-stack web applications, ensuring responsiveness and cross-platform compatibility.
- Designed and managed relational and NoSQL databases using PostgreSQL and MongoDB for efficient data storage.

Aug 2023   ■ **Codecadem**
- Completed comprehensive Codecademy courses covering HTML5, CSS3, and JavaScript fundamentals.
- Built responsive and accessible web pages using semantic HTML and modern CSS techniques.
- Worked on hands-on projects to apply front-end technologies in real-world scenarios.

Jan 2024   ■ **Coursera - Meta**

Front-End Basics: Learned **HTML, CSS, and JavaScript fundamentals**, built responsive web pages, and practiced creating interactive UI components.

Virtual Control: Gained experience using **Virtual DOM concepts** to efficiently update and render UI elements in React applications.

Hands-On Projects: Applied skills in small projects, practicing state management, event handling, and component-based design in front-end development.

Mar 2025

Coursera - IBM

Software Engineering Fundamentals: Learned the core concepts of software development, software lifecycle, and methodologies like Agile and Waterfall.

Problem-Solving & Algorithms: Gained knowledge in analyzing problems, designing solutions, and implementing algorithms effectively.

Hands-On Practice: Applied software engineering principles through exercises and mini-projects, including requirement analysis, system design, and testing.

Certificates

Feb 2025

Full-Stack Web Development Bootcamp

Front-End Development: Learned HTML, CSS, JavaScript, React.js (basic & advanced), responsive design, and virtual control techniques.

Back-End Development: Gained experience with Node.js, Express, PostgreSQL, MongoDB, authentication, and REST APIs.

Full-Stack Projects: Built hands-on full-stack applications including deployment, version control (Git/GitHub), and real-world project workflow.

Web3 / Blockchain Basics: Introduction to Web3 development and Motoko language for blockchain applications.

Aug 2023

codecademy
- Completed comprehensive Codecademy courses in HTML5, CSS3, and JavaScript fundamentals.
- Gained practical experience in front-end development through Codecademy interactive lessons.

Jan 2024

Meta
- Certified Meta Front-End Developer with proficiency in React.js and JavaScript.
- Certified Meta React Basic and React, Advance
- Certified Meta Version Control (Git & GitHub)
- Certified Meta JavaScript (ES6)

Mar 2025

IBM
Certified Completed the **Introduction to Software Engineering** course.
